

Dear Little House Members,

What an amazing year 2016 has been! As we move forward to next year, the staff at Little House has many exciting new programs planned and ways to help you stay active. With all the new programs planned, we have decided to offer a change to our pricing structure starting in January. We will be moving to a pass system where you purchase classes in quantities of 1, 5 or 10. This will replace our monthly pricing system.

This new structure will allow for greater flexibility with your schedule. If you are unable to attend a class, you can now cancel in advance and will no longer have to pay for it. The class passes are valid for up to 3 months (so there is no penalty for joining late in the month)*. Additionally, when you purchase a class pass, you will now be able use that pass for several different classes which allows you to explore the many programs we have here.

We hope you find this new structure provides you with more opportunities to take advantage of all Little House has to offer at a lower cost.

Paige Sweetin
Little House Program Manager
